

Project Design Phase-I Solution Architecture

Date	30 October 2022
Team ID	PNT2022TMID52669
Project Name	News Tracker
Maximum Marks	4 Marks

SOLUTION ARCHITECTURE:

Solution architecture is a complex process with many sub-processes that bridges the gap between business problems and technology solutions. Its goal is to:

- Find the best technical solution to solve existing business problems.
- Describe the structure, characteristics, behaviour and other aspects of the software to project stakeholders.
- Specify the features, stages of development, and requirements for the solution.
- Offer guidelines for how the solution is created, managed, and delivered.
